

DRIVERS EDUCATION PROGRAM at ST. JOHN'S MILITARY SCHOOL

(PLEASE read this notice carefully!)

St. John's is working with Horizon's Driving Academy to offer a certified drivers education program to our cadets. Completion of this course will result in the issuance of a **Kansas Driver's License**. License restrictions, if any, are based on the age of the student, in accordance with Kansas law.

All training is conducted by Horizons Driving Academy. The classes will consist of:

- 8 hours of classroom study.
- 2 separate 3-hour blocks of driving time with a certified instructor. (6 hours total driving)
- Transportation to the classes and the DMV office as necessary.

FEES: The fee for this class is \$300, payable to SJMS. With parental approval, this can be charged to the cadet's regular monthly account. The only other charge is the approximately \$22 license issuance fee which the cadet will need to pay at the time he goes to the DMV to receive his license.

SELECTION CRITERIA: Because of Kansas licensing requirements, this class is only recommended for cadets which are at least 16 ½ years old or Kansas residents which are at least 14 years old. For out-of-state cadets, we have had no problem transferring these licenses to other states. In addition each class is limited to 10 students. The classes will be filled with older students first, selected by date of application. Unfortunately, not every cadet that applies will be able to take this class. We are sorry, but this is unavoidable due to the hours of driving time involved and the personalized education provided by the Horizon's driving instructor. We plan to offer several class sessions throughout the year in order to accommodate the largest number of students possible. Due to the amount of time required to complete the program, we strongly recommend enrolling your son as early in the year as possible.

Medical Requirements: If your son is on any type of regularly scheduled medication, he may be required by the State of Kansas to have a physical and doctors release prior to receiving his driver's license. SJMS will assist you with this at your request.

ENROLLMENT REQUIREMENTS: To enroll your son, return the attached contract, along with his identification documents (see the frequently asked questions) to Douglas D Dutton, CFO, SJMS, PO BOX 5020, SALINA, KS 67402, or fax to (785) 309-5489, or email to douglasd@sjms.org. **(The identification documents must be originals so they need to be mailed or hand delivered.)**

DISCLAIMER: St. John's Military School is in no way connected with Horizons Driving Academy and is only acting as a facilitator to bring students, parents, and the academy together. If your son leaves St. John's for any reason, after starting but before completing this course of drivers training and obtaining his license, there is no refund of the fee. This is a contract between you and Horizon's Driving Academy, to which St. John's is in no way a party and assumes no liability.

FREQUENTLY ASKED QUESTIONS:

My son already took drivers education at his old school. Can't he just get a Kansas License?

No – The only way Horizons can sign off on a student is for them to complete the entire syllabus that they operate under.

Do I have to send a check with his contract?

You may send a check if you wish, or we can bill it to your SJMS incidentals account. If you send a check, be sure to make it payable to SJMS.

Will this class reduce my insurance premiums?

In many cases, yes, but every insurance company is different so you need to check with your personal insurance agent.

How soon will my son have his license?

Once he completes the classroom training he is scheduled for 6 hours of driving. When the driving is complete, Horizons sends the completion slip to the Kansas DMV. Kansas DMV signs off on the training and returns it by mail. Only after each of these steps is complete, can we take your cadet to the local office to pay the fee and receive his eye exam and photograph. He will then be issued a temporary license. His plastic license will be mailed to SJMS within a few weeks. The total time this takes depends on how soon we can get your son behind the wheel for his driving time.

Be advised- when everything goes smoothly, this process takes several weeks. If a physical is required or your son has problems completing the driving requirements, the process will take longer. For this reason, we strongly recommend that you enroll your son as early in the school year as possible so that there is ample time to work through any issues that may arise. SJMS & Horizons Driving Academy offer no warranty that your son will receive his license before departing school when or if issues come up between your son and the State of Kansas, that are beyond our control.

What forms of identification are acceptable for my son to obtain a Kansas Driver's License?

All license applicants must provide 2 acceptable proofs of identity

- **The first** must be a **certified US birth certificate**, an **unexpired Passport or passport card**, or **an unexpired military ID card**. (In addition, a certified order of adoption is required if the name on the birth certificate is different than their legal name.)
- **The second** can be any additional item from the first list, an unexpired driver's license from another state, a state issued ID card, a medical health insurance card, or a student ID card (which we can provide).

NOTE: All of these items MUST BE ORIGINAL DOCUMENTS, copies, facsimiles, miniatures, etc. do not qualify! The identification documents are needed to enroll in the class and again to obtain the license from the DMV. The original documents will be returned to you after your son has completed the training and obtained his license.

They must also have proof of their address, which we will provide by means of a SJMS transcript showing that they attend school here.

What address will be on my sons license?

You must be a resident of Kansas in order to obtain a Kansas License. For this reason, we will use his St. John's address and a copy of his transcript as proof that he lives here and attends school. When he returns home, he may take his Kansas license to your local DMV and turn it in to obtain a license for your home state with your home address, in accordance with your individual state law.

Can I get additional driving time for my son? After your son completes the driving portion of his training, additional driving hours may be available by private arrangement between you and the driving instructor. Please contact us for further details.
